

**ICECOONS CATTERY breeders of
AMIABLE MAINE COONS
PRESENTS
SV GD CH ICECOONS ISANDER**

EXHIBIT
NUMBER

This delightful fellow, Isander, is my Best Maine Coon because he is of absolutely outstanding temperament and amiability, with a beautiful body and head type and has a wonderfully naturally lustrous coat which is easy to care for. (I'm still working on the ears!) The first Maine Coons which I purchased were either rather timid, or had a distinct aversion to being handled, not desirable traits in a cat which needs lots of grooming, including the occasional bath! I loved the look of this

breed, and had for the first time in over 25 years of breeding, actually won consistently at shows! Isander did me proud in 2007 becoming Runner-Up to Group 1 Cat of the Year, while his mother, Pawsplus Clever Cleo was my **VERY FIRST** CCCA Champion in over 25 years of breeding.

- from \$1250, *conditions apply.*

Breeding price includes Leucogen, Registration & Transfer. Will ship interstate and overseas.

5 STUDS available, service fee from \$650, conditions apply. Results HCM tests, and hip X-rays available .

I set out to breed the temperament I wanted into these very handsome cats. In 'Mick' (Cosmic Storm) I found the temperament, I used him 3 times, and kept a kitten each time. With the advent of the first HCM DNA testing I was also

delighted to find several of my cats, including Isander, were free of the mutation. Isander has to date sired only one litter of kittens and I am waiting to see whether they all also have his wonderful nature. He lives amicably with 3 Australian Mist Studs, and comes out regularly to show himself off, and to bask in the adulation of his many admirers. He is a really great ambassador for the breed, and I'm sure has been responsible for many a kitten sale. He is indeed worthy of the epithet AMIABLE, so well given to the breed in the Standard preamble. Isander is indeed my best cat, for all the love and pleasure he has given me.

Dr Truda Straede
